## Mines and Mining Stocks

## NEVADA CON. CAN SUPPLY SMELTER

tion Feature Which Led to Big Merger.

The consideration of greatest weight, the temporary closing down of Cumberland Ely, that the Nevada Consolidated the Steptoe smelter and concentrator at ing developed so rapidly that the situation in this regard will not be changed even after the contemplated enlarge-

### Development Is Remarkable.

"In this connection it should be borne in mind, too. that a comparatively small area of your entire property has been prospected. The extraordinary ore-body aggregating 8,000,000 tons of a copper tenor of about 21/2 per cent blocked out on a single claim-the Ruth-is especlally worthy of attention, for such a reserve of ore constitutes in itself a great mine, though it may be years be fore we move a single ton from it. From the history of the past year, combined with the results of development work now in progress, we are confident that the coming year will disclose a very large increase in ore reserves, and, in fact, it is reasonable to believe that, for many years to come, very material additions will be made each succeeding year to this proven area.

"The average percentage of extraction of copper and the precious metals in your concentrator and smelter is gradually improving, and the installation of new reverberators and converters has secured increased economy in the cost of production, while the completion of our new construction in January will effect a further material saving of ex-

"With respect to the net surplus for the fiscal year, it is proper to advise that only during the last three months of that period did the product attain a total in excess of 4,000,000 pounds per month. During the last quarter the production was 14,265,788 pounds. While the operations of the last quarter were still less than normal, the earnings were on a basis of considerably over \$3,000,000 per annum.

### Production Is Increased. "During the fiscal year which ended

Sept. 30, your company produced 34,527,823 pounds of refined copper. For the month of October, 1909, the actual shipments of copper have exceeded 5,000,000 pounds, and by January, 1910, there is every reason to expect that the monthly production of blister copper will reach 6,000,000 pounds. Never before in the history of copper production in America have such results been obtained in the same space of time, and when it is borne in mind that only two years ago we were just emerging from the prospect stage of our development, I feel that there is every reason for grati- | So. Ir. Blos fication.

"The inclusive cost of all the copper produced and marketed by your company during the fiscal year was less than 71/2 cents per pound

"The profits during the fiscal year have fully justified your board of directors in declaring an initia! quarterly dividend at the rate of 37½ cents a W. Nev. Col share, involving a disbursement of Westn. Nev Yankee Con \$750,000. This dividend is payable on Yer. Cop .... Dec. 31, 1909. The early action with regard to the dividend was taken with a view to afford the bondholders the fullest opportunity to convert their bonds into stock and participate in the dividend distribution."

## Results for Year.

Members of the party last night expressed great pleasure and satisfaction with what they had seen upon the trip. The workings of the greatest two lowcost copper producers-Utah Copper and Nevada Consolidated-to those who had not seen them before was a dis-

the southern country. The visiting party, which was met by nim on the round of the copper camps, includes Charles Hayden, C. L. Robinson, H. M. Blackmer, J. H. Waters, C. M. MacNeill, Sherwood Aldrich, E. P. Shove, Colonel K. R. Rabbitt, A. Chester Beatty, Maxime H. Furlard, W. Hinckel Smith and J. P. Cobb.

## NEW RICH STRIKE IS

dale boom are noted. Many lessees who abandoned their leases during the period of depression for the camp are trying to get them back, and more applications for leases have been received, it is said, than there are blocks of ground vacant. The original rich strike now shows five feet of \$200 ore, according to the statement of James Clifford. Edward Clifford has gone to California to purchase a small mill for the mine.

## REEF MINING COMPANY

Members of the Reef Mining compay, which owns several claims in the ld Silver Reef camp, in Washington county, Utah, have just received word from the manager, Henry Welte, who has been working on the claims, that he has discovered a silver ledge a foot in thickness, carrying several hundred ounces in silver. The ledge was struck by sinking a shaft from the bottom of the incline, which is down 400 feet, according to the letter received.

## COLE FILES DEED IN ELY.

Deeds showing transfers of Ely properties to Thomas F. Cole of the Cole-Ryan syndicate have been filed in the consideration given in each case is \$10. | Cole-Ryan interests. The deed conveying the property of the Veteran-Ely Extension Mining company is dated Sept. 10. The claims conveyed are the Mammoth No. 1, No. 2, No. 3, No. 4, No. 5, No. 9 and No. 10, the Ouray, the Telluride, the Silverton, the Steve-John, the Roosevelt, the Ouray Fraction and the Telluride Frac-

H. W. Reed of Salt Lake City filed a deed quitclaiming his interest in the salt Lake Stock & Mining exchange, same claims to Thomas F. Cole. The The company is capitalized for only quit claim deeds bear the date of Oct. 18. 150,000 shares, par value \$1, and the first ferring to Thomas F. Cole its entire working is 350 feet, it has produced holdings in the Robinson mining district. These comprise the following which brought net returns of \$55,000, claims: The Hope, the Bill Nye, the and it is estimated that not less than Mother Lode, the Thorndyke and the Express. F. F. Leach of Wells, Nev., quit claims his interest in these claims to the same purchaser.

\$50,000 of net ore is in sight at this time. Officers of the company are Lucien Merritt, president; Walter G. Borgen, secretary; E. R. Ribenask, treasurer.

### HEARS OF RICH STRIKE UNCLE JESSE KNIGHT BUYS ELY LEAD MINE

During his recent visit to Nevada Uncle Jesse Knight purchased from John A. Steele and Richard Riepe the Steele claim, adjoining the Gold Standard group, in Robinson district, for a cash consideration of \$10,000. The property has been developed to considerable extent and is one of the standard leadcopper producers of that section. Mr. Knight will undertake the operation of the mine in a short time, it is understood. His advent to the lead field of eastern Nevada is taken by the Ely newspapers as a certain indication that lead furnaces will soon be provided, either by the Steptoe company, the county recorder's office at Ely. The United States Smelting company or the

Date of first publication, October 13, 1909; date of completion of publication,

United States Land Office,
Salt Lake City, Utah, July 31, 1909.
To Whom It May Concern:
Notice is hereby given that the state
of Utah has filed in this office lists of
lands, selected by the said state, under
section 6 of the act of congress approved

July 16, 1894, as indemnity school lands,

East one-half southeast quarter section 3; east one-half northeast quarter sec-ion 24, township 4 south, range 1 west; southeast quarter southeast quarter sec-tion 20, north one-half northeast quarter; southeast quarter northeast quarter sec-tion 29, township 2 south, range 3 west, serial 04273; southeast quarter southeast tion 29, township 2 south, range 3 west, serial 04273; southeast quarter southeast quarter section 6; southwest quarter southwest quarter section 5; northeast quarter northeast quarter section 7, township 4 south, range 2 west, serial 04274.

Copies of said lists, so far as they relate to said tracts by descriptive subdivisions, have been conspicuously posted in this office for inspection by any person interested and by the public generally.

During the period of publication of this notice, or any time thereafter, and before final approval and certification, under departmental regulations of April 25, 1907, protests or contests against the claim of the state to any of the tracts or subdivisions hereinbefore described, on the ground that the same is more valuable for mineral than for agricultural purposes, viil be received and noted for report to the general land office at Washington, D. C. Failure so to protest or contest, within the time specified, will be considered sufficient evidence of the non-mineral character of the tracts and the selections thereof, being otherwise free from objection, will be approved to the state.

E. D. R. THOMPSON, Register.

Notice to Water Users. State Engineer's Office, Salt Lake City, Utah, September 30, 1909.

Notice is hereby given that W. D. Wilcock, whose postoffice address is Escalante, Utah, has made application in accordance with the requirements of the Compiled Laws of Utah, 1907, as amended by the Sessien Laws of Utah, 1909, to appropriate one (i) cubic foot per second of water from Seepage Springs, Garfield county, Utah, Said water will be diverted at a point which lies 742 feet east of the northwest corner of the northwest quarter of the southeast quarter of section 34, township 35 south, range 3 east, Salt Lake base and meridian, from where it will be conveyed by means of a ditch and a flume for a distance of about 100 feet, and there used from March 1 to October 31, inclusive, of each year, to irrigate 160 acres of land embraced in section 34, township 35 south, range 3 east, Salt Lake base and meridian. This application is designated in the State Engineer's office as No. 2497.

All protests against the granting of said application, stating the reasons therefor, must be made by affidavit in duplicate and filed in this office within thirty (30) days after the completion of the publication of this notice. State Engineer's Office, Salt Lake City, Utah, September 30, 1909.

days after the control tion of this notice.

CALEB TANNER,

Engineer Date of first publication, October 13, 1909; date of completion of publication, November 12, 1909.

Notice to Water Users. State Engineer's Office, Salt Lake City, Utah, September 30, 1909.

Notice is hereby given that J. W. Boyce, whose postoffice address is Murray, Utah, has made application in accordance with the requirements of the Compiled Laws of Utah, 1907, as amended by the Session Laws of Utah, 1909, to appropriate ten (10) cubic feet per second of water from Spring Creek, Salt Lake county, Utah, Said water will be diverted by means of a pipe line, flumes and ditches, at a point which lies 236.2 feet north and 641.7 feet east from the southeast corner of section 8, township 2 south, range 1 east, Salt Lake base and meridian, from which point it will be conveyed for a distance of 1,600 feet and there used from January 1 to December 31, inclusive, of each year, for fish culture purposes. It is the intention of the applicant to use the natural channels from the point of diversion to the point of return, which latter point is situated 1,154 feet north and 330 feet west from the southeast corner of section 8, township 2 south, range 1 east, Salt Lake base and meridian. This application is designated in the State Engineer's office as No. 2004.

All protests against the granting of said application, stating the reasons therefor, must be made by affidavit in duplicate and filed in this office within thirty (30) days after the completion of the publication of this notice. CALEB TANNER, State Engineer's Office, Salt Lake City,
